Sir,

Subject:- Tenders - Repairs of - Municipal Ambulance Car -
Non invitation - Condonation - Requested.

The Municipal Ambulance Car M D X 301 was received in the year 1938 and ever since its receipt the engine was not cleaned. It went out order for several months and was sent to Messrs Shanker Vittal Motor Co Ltd, a reliable concern that undertakes repairs of Motors etc. The corroded portion of the body had to be rebuilt. When the car was taken and dismantled at the work shop it was seen that it required extensive repairs to the body, the iron plates had to be removed and replaced as they were rust eaten and painting done. The work could not be entrusted to other persons or companies as they would not come and inspect the car lying in another's garages. When the Ambulance was sent for repairs it was not anticipated that the charges would exceed Rs. 300/- and hence no tender was called for.

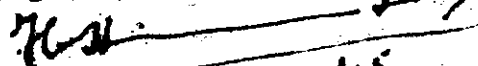

The

The Municipal Ambulance in question was repaired at Messrs Shanker Vittal Motor Co. and the bill submitted by them amounts Rs. 599- 2- 0 including a sum of Rs.175 for painting the whole body. A copy of the remarks dated the 30th April 1945 of the Municipal Health Officer recording reasons for the non invitation of tenders in respect of this Ambulance car, is enclosed. I request that the Government may be pleased to condone the irregularity and sanction the payment of the amount billed for.

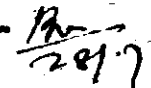

The Municipal Council in its resolution No.77(5) dated the 26th March 1945 (Copy enclosed) has sanctioned the payment of the bill.

When the ambulance car went out of order and required extensive repairs to the body, it was sent to Shankar Vittal Motor workshop which is a reliable limited concern doing good repairs. When the repairs were put on hand by them it was found that most of the iron plates of the body were rust eaten and required replacement and it had to be done. The engine also required various repairs and the total cost went over Rs.300/-. Under these circumstances tenders for the work may be waived.

Retransmitted to the Commissioner, Mangalore Municipality,
Mangalore.

In cases of repairs to motor vehicles it was found difficult to get exact estimates or tenders. No estimate can be prepared unless the actual damage is known which cannot be made out without dismantling the engine etc. When the vehicle is dismantled in one workshop it cannot be taken to another workshop for inspection and estimation nor will other repairers go and inspect it in another workshop. Hence it is not possible to obtain tenders for repairs of Public Health motor vehicles. Moreover, Public Health lorries cannot be kept inside for long, for want of spares, till an estimate is prepared and approved. When a similar question arose previously the matter was placed before the Council and it has passed the following resolution:-

Resolution No.25 dated 13-10-1941 resolved that in matter of repairs in future to Municipal lorries, the same is left to the Executive as to which of the workshops any particular work is to be done.
